VIDEO WALL DISPLAYS

THE TOPAZ ULTRA-SLIM BEZEL DISPLAY
DESIGNED FOR EYE-CATCHING SEAMLESS VIDEO WALL SOLUTIONS

Our TOPAZ Video Wall displays provide a near seamless bezel with a combined bezel thickness of just 3.5mm between the 2 screens! This delivers breath-taking results when a real impact is needed creating a near seamless image on a big scale.

Designed for digital signage applications and intended to operate 24/7 this display features an Inbuilt Video Matrix Processor meaning the displays can be connected together to create a video wall and will automatically tile the content with no additional hardware needed!

These displays feature a wide range of inputs making it easy to connect your media source to the video wall..

PRODUCT HIGHLIGHTS

NEAR SEAMLESS BEZEL

At a combined width of just 3.5mm these displays offer a near seamless video wall delivering maximum results

SMART TEMPERATURE CONTROL

The intuitive temperature control system even allows you to set the desired temperature for the fans to become active ensuring the displays and their internal components operate at the optimum temperature!
POWER TIMER

Reduce power consumption and operating costs by automatically scheduling your displays to switch on & off

AUTOMATIC SCREEN TILING

The integrated video matrix processor, means that no additional hardware is needed to configure your Video Wall in your required layout.
RS-232 CONTROL

Using RS-232, you can daisy-chain multiple TOPAZ Video Wall displays together resulting in a stunning finish
