Enter the world of digital with the TOPAZ VLS Series displays with sleek looks & powerful performance

Our VLS series display range has been created to deliver power and performance but with price in mind.

Designed to operate 24/7 and with a 3 year warranty you have piece of mind that you're investing in commercial grade equipment built for the rigours of digital signage and is perfectly suited to busy commercial environments where quality & reliability are pre-requisites.

Featuring industry leading IPS panels, narrow bezels, inbuilt media player and the TOPAZ CMS software these networked displays make broadcasting your messages effortless with exceptional 'All in One' pricing.

These screens deliver power and functionality combined with exceptional 'All in One' pricing.

Key Features

Sunlight Readable

Android OS

Smart Temperature Control

Portrait or Landscape

1000 CD/m2 High Brightness

Designed to be in brightly lit areas, the Stretch display will make your content really stand out with four times the brightness of an ordinary domestic displays.

Slimline Bezels

Designed to create maximum impact, the Stretch displays have been designed to have slimline bezels to make the most of the 28 or 37 inch displays.

IPS Panel

Commercial grade IPS Panels guarantees impeccable image quality and colour depth with the ultra wide viewing angle in any direction.

Media Zones

Split the content on the display into different media zones, have video, image and even web pages all at once with different media zones. Creating maximum engagement with your customers.
